House Wrap

Rex Wrap - Standard

REX™ Wrap is manufactured from a polypropylene woven fabric with a polypropylene coating that contains UV inhibitors

- Provides protection from water infiltration but breathes allowing water vapor to escape
- Light weight and somewhat translucent to allow for easy installation
- UV resistant and can be left exposed for up to 6 months
- Tear resistant reduces jobsite waste and blow-offs
- Meets and exceeds all current building codes for water resistive barrier as well as air barrier

| PRODUCT SPECIFICATIONS | | |
|------------------------|---------------------|------|
| Composition | Woven Polypropylene | |
| Weight Per Roll | 11.8 lbs./ MSF | |
| Thickness | 5.5 mils. | |
| Tensile Strength | MD | 79 |
| | CD | 51 |
| Tear Strength | MD | 47.1 |
| | CD | 18.7 |
| Water Resistance | Pass | |
| MVTR/Perms | 8 Perms | |
| Fire Rating | Class A | |

House Wrap

Optional Tyvek

How It Works:

DuPont™ Tyvek® HomeWrap® helps protect a home against damaging wind and rain that can penetrate through the exterior cladding.

The unique nonwoven structure of DuPont™ Tyvek® HomeWrap® blocks excess water from entering into walls.

The breathable structure of this house wrap allows moisture vapor to pass through to help promote drying in wall systems which can aid in preventing the growth of mold and mildew.

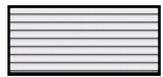

The unique non-woven fiber structure of DuPont™ Tyvek® HomeWrap® stops air movement through the walls helping to provide a more energy efficient home.

Rustic Cedar

Standard Ridge Vent:

COOLRIDGE® is an injection-molded polypropylene sectional ridge vent with external baffles.

- 18 square inches of net free area per linear foot.
- 25-40 year Limited Warranty and Arbitration Agreement (depending on shingle installed).
- Internal supports in nail line area provide compression resistance for nailing.
- Embossed nail line and 1/2" nail zone area with clear space underneath help facilitate proper nailing.
- Exterior baffles and internal "sinewave"-shaped baffles help keep rain and snow out.
- Male/female connection between pieces helps protect seams from leaks.
- Vent holes are only 1/8" wide to help prevent insect infiltration.
- Drain holes every 4" in exterior baffle to prevent water build-up.

Due to variation in computer monitors and printers, the color samples seen here may not exactly match the corresponding color.

CertainTeed Landmark® Shingles

Optional Upgrade Shingles

LANDMARK®
SERIES SHINGLES

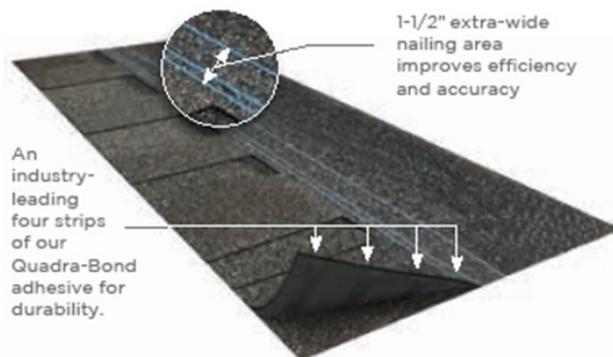

Featuring
StreakFighter® &
NailTrak® Technology

NAILTrak Shingle Technology

The bond that holds it together.

For more than a decade, NailTrak has improved shingle installation by providing a nailing area three times wider than that of a typical laminate shingle. This increases efficiency and accuracy in installation, providing homeowners greater peace of mind. Landmark® shingles also feature our specially-formulated Quadra-Bond® adhesive, providing industry-leading resistance to delamination. Together, our NailTrak and Quadra-Bond technologies deliver the strength and durability that allow your roof to stand the test of time.

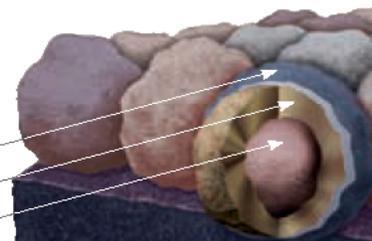

STREAKFighter Algae-Resistant Shingle Technology

The ultimate in stain protection.

Those streaks you see on other roofs in your neighborhood? That's algae, and it's a common eyesore on roofing throughout North America. CertainTeed's StreakFighter technology uses the power of science to repel algae before it can take hold and spread. StreakFighter's granular blend includes naturally algae-resistant copper, helping your roof maintain its curb appeal and look beautiful for years to come.

MIRA PREMIUM SERIES

double hung windows feature tilt-in sashes, weather stripping, cam-action sash locks, a wide bottom rail, 14° sloped sill, and sturdy 6/4 sash construction.

Available Exterior Colors:

PRODUCT FEATURES

Double Hung

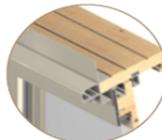

- Tilt-in sash design for easy cleaning from the safety of inside your home
- Sash interlock provides superior structural performance
- Stepped jambliner design for superior structural performance while maximizing available daylight opening
- Three-piece jambliner allows for different interior and exterior jambliner colors
- 6/4 sash construction for historically accurate wood window look
- 4⁹/₁₆" jambs made of clear wood eliminate extensive drywall work
- Sash and interior made with select clear wood; ready for paint or stain to match any interior décor (also available in pre-finished white)
- Integral face groove allows for easy mulling and exterior accessory application
- Pre-punched nailing fin for simple installation
- AAMA 2604 paint finish provides superior resistance to chalking and fading
- Energy-efficient Warm Edge insulating HP glass reduces energy costs while reducing fabric fading—optional HP^{SC} or HP2+ glass upgrade and optional Warm Edge+ spacer system upgrade available for enhanced performance
- Vacuum-treated, solid wood components resist damage from water and fungus
- Durable .050 extruded aluminum cladding on all exterior frame surfaces resists dings and dents while providing structural integrity

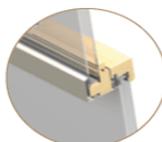

Flush-mounted tilt latches and lock and keeper with matching finish fasteners create a clean, high-quality appearance

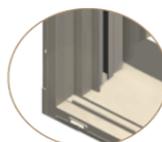

One-piece, full 4⁹/₁₆" head and side jamb with inside stop blind nailed to reduce the number of visible nail holes

Accessory grooves for mulling and casing application, screen pocket in head and sill for spring-loaded screen

Aluminum sash interlock provides superior structural performance

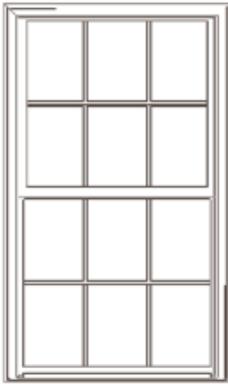

Water management system for increased water performance

Harvey Slimline Windows

Vinyl Double Hung Windows

Optional Upgrade

Slimline Vinyl Double Hung Window

Offering high-quality design and excellent value, Harvey Slimline windows are custom-made with a sleek profile.

The Harvey Slimline white vinyl double hung window lives up to its name with a slim, fully-welded sash profile and frame that minimizes bulk and maximizes your view. Slimline offers an attractive design at an affordable price, without compromising on features and thermal performance.

- Durable, multi-chambered vinyl frame is fusion welded for extra strength
- Both top and bottom sash tilt in for easy cleaning
- Includes low profile metal weep locks + limit latches
- Block and tackle balances allow for a lifetime of smooth opening and closing
- ThermaGuard Glass Performance: Industry-leading Low-E coating combines with Argon gas for effective insulating properties, keeping the inside of your home comfortable and assisting with energy efficiency
- Includes Screen: Aluminum Frame w/Fiberglass Mesh

Low Profile Sweep Lock

(5/8" Grids)

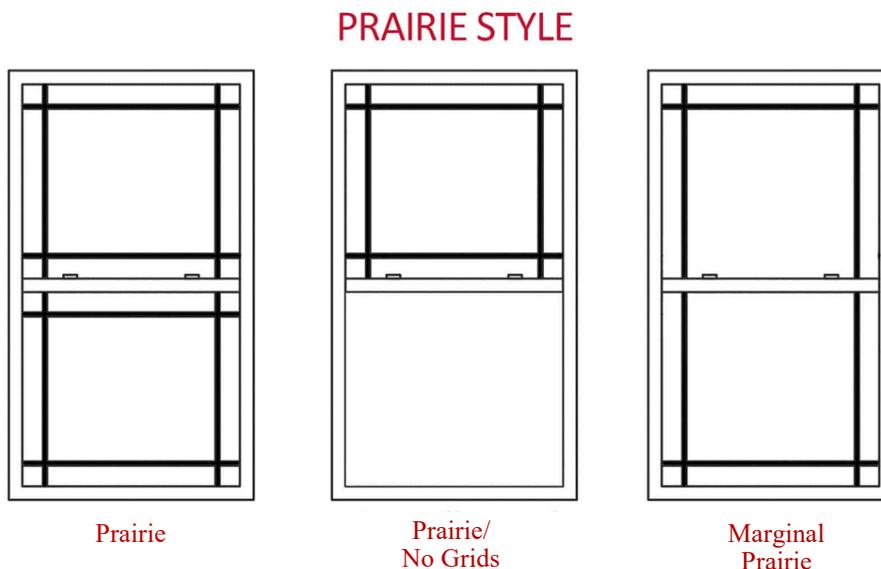

Harvey Slimline Window Grid Styles:

Colonial-style grids are usually divided into equal sections. Commonly in sets of 4, 6 or 9. Colonial grids are a more traditional look.

Prairie-style grids are divided into unequal panes. They feature a larger square in the middle and smaller squares in the corners. These are a contemporary or farmhouse style.

Due to variation in computer monitors and printers, the color samples seen here may not exactly match the corresponding color.

Andersen 400 Series Windows

Tilt-Wash Double Hung Windows

Andersen 

400 SERIES

Tilt-Wash Double-Hung Windows

Andersen® 400 Series tilt-wash double-hung windows are engineered to provide outstanding performance and style. Combined with the tilt-to-clean sash, it's easy to see why it's Andersen's best selling double-hung. On the inside you have the choice of natural pine or low-maintenance white, dark bronze or black finish.

Durable

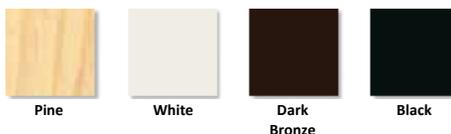

- Virtually maintenance-free
- Perma-Shield® exteriors never need painting, won't peel, blister, flake or corrode
- Frame exterior is protected by a tough vinyl cover that resists dents, repels water and provides long lasting protection.
- Available w/Stormwatch® protection for coastal areas

Energy Efficient

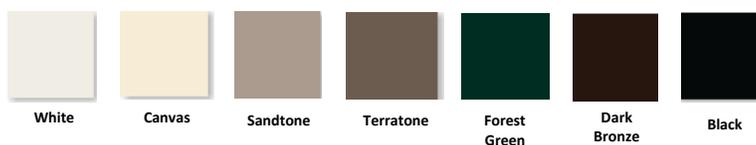

- Weather-resistant construction for greater comfort and energy efficiency
- Weatherstripping is designed to seal out drafts, wind and water
- Variety of Low-E® glass options are available to help control heating and cooling costs in any climate
- Many 400 Series tilt-wash double-hung windows have options that make them ENERGY STAR® v.6.0 certified throughout the U.S.

Viwinco S-Series Double Hung Windows

Optional Upgrade

Viwinco double hung window standard features :

- 1-1/4" integral, pre-punched nailing fin contributes to trouble free installation
- Beveled exterior for traditional craftsmanship look
- Chambered vinyl profiles add thermal efficiency and structural strength
- Equally sized glass in both sashes for balanced design

- S-Series double hung windows come with the option of Vinwinco's patented reinforcement system with Tilt-n-Lock hardware, which provides strength where it's most needed, along the interlock. The reinforcement becomes the housing for the hardware that allows you to use the lock to tilt the sash in with just one hand. Tilt latches are not visible
- Sash interlock for added security and thermal efficiency
- 15/16" double strength glass with Solarban® 60 low-e, stainless steel, low-conductance spacer and argon gas fill for excellent thermal performance
- 5-degree true sloped sill directs water and debris away from the home
- Screen track secures screen to better block insects
- Snap-in accessory expands J-channel to 1-1/4" to receive greater range of cladding thicknesses
- Integral J-channel saves time on exterior finishing
- Fully welded sill dam with a mortised-in, replaceable weatherstripped leg increases strength and performance, and provides a clean, aesthetically appealing look
- Integral designer lift rails make sash operation easy and comfortable
- Stainless-steel 3/4" constant-force balance eliminates sash drift & never needs adjustments
- Low-profile tilt latches for an uncluttered appearance
- Locking pivot bar secures sash to frame and stabilizes window for shipping
- Dual nite-vents limit sash travel for ventilation
- Fully fusion-welded vinyl frame and sash for strength, durability and low maintenance

Viwinco Oceanview Impact Resistant Double Hung Windows

Optional Upgrade

OceanView® Impact-Resistant Windows

Full-Time Protection against Hurricane-Force Winds and Flying Debris.

Essential Benefits Provided by OceanView Windows

Safety

1. **The windows withstand hurricane and other brutal weather conditions.** Their resistance to windborne debris affects the entire structure: when the windows stay intact, uplift forces are prevented from entering the house, lifting up the roof and pushing the walls outward.
2. **Improved Security.** OceanView products reduce the risk of forced entry. The combination of a double pane of laminated glass and single pane of tempered glass makes it extraordinarily hard to gain entry.

To test impact products, an 8-foot 2x4 is shot out of a computerized cannon at 50 feet per second, the equivalent of 34 mph. The strength of the interlayer in Viwinco's laminated glass stops the 2x4 from penetrating the glass unit. OceanView windows meet a structural wind speed rating of 171.2 mph.

Energy Efficiency and Conservation

1. **Superior insulating value.** OceanView windows contain Viwinco's high performance glass package (15/16" double –strength, laminated glass with a .090" interlayer thickness; tempered, low-e Intercept® ULTRA stainless-steel low-conductance spacer, and argon gas fill). The home stays cool in the inside, decreasing the amount of air conditioning needed.
2. **Airtight, watertight & thermally efficient.** OceanView windows are designed to keep out drafts, moisture, noise and dust and they exceed the industry standards set by the AAMA/WDMA for thermal efficiency.
3. **More light = less electricity use.** Heat is blocked from entering the house while visible light is admitted.

Healthy Living

1. **Peace and Quiet.** The combination of laminated glass, the stainless-steel, low-conductance spacer and argon gas contribute to a significant reduction in sound transmission.
2. **Protection from Harmful UV Rays.** The low-e and laminated glass panel cuts down on almost all UV light.
3. **More Light.** The windows in the home allow in a enormous amount of visible light, which research has shown to have a positive affect on mood.

Ease

1. **No need for shutters or storm panels.** OceanView products provide hassle-free, round-the-clock, year-round protection.
2. Practically maintenance free.
