Optional Granite Countertop Surface Color & Design Guide

Granite is a natural material that is both distinctive and durable for a beautiful kitchen. Granites may have some white in the background, but mostly they are found in colorful shades with striking flecks – reds, greens, golds, creams, rusts, blues, silvers and even blacks are colors you can find in granite.

THE NATURAL
LOOK OF
PAINTED OR
STAINED CEDAR

CertainTeed
SAINT-GOBAIN

Whether it's a Victorian reproduction, a New England saltbox or a modern beach house get-away, today's homeowners want the rich look of natural cedar without the expense and heavy maintenance.

Molded from hand-picked cedar clapboards, Monogram's TrueTexture[™] finish offers the most realistic natural wood look available and complements any home style.

KOMFORT WITH PERFORMANCE

Msystem 25 Warranty

10 years on the glass

25 years on all other parts

**Plastpro
Smooth Fiberglass Slab**

The smooth fiberglass slab and jamb from Plastpro is designed with HydroShield Technology.

The door has a water resistant smooth fiberglass skin. Also, it is manufactured with composite stiles and rails on all four sides. This virtually allows for no water penetration, making it not susceptible to rotting, twisting, or warping. And since it contains no metal, rust will also not appear. This leaves you with a high performance door with a long lasting, quality appearance.

The frame is a smooth closed cellular that ensures the door frame;

- ✓ Will not absorb or wick moisture.
- ✓ Prevents warping.
- ✓ Will not rot or split.
- ✓ Is impervious to insects.

The Komfort series door with HydroShield Technology gives you a long lasting, beautiful patio door.

KNOW THE BEAUTY OF INNOVATION

SMOOTH FIBERGLASS DOORS

1 FIBERGLASS REINFORCED DOOR SKINS

Our exclusive formula is measured precisely to ensure each skin is produced to the highest quality. The skins require little maintenance and will not splinter, dent, warp, rot, or rust.

2 FULL LENGTH COMPOSITE STILES

Our full-length composite stiles protect the door from external moisture to prevent warping or rotting. They have twice the screw-holding strength of wood.

3 COMPOSITE TOP & BOTTOM RAILS

High strength composite top and bottom rails prevent moisture from seeping into the door and stops the buildup of mold.

4 EXTENDED LOCKBLOCK

Plastpro's full length LVL allows any type of lock to be placed for increased security.

5 POLYURETHANE FOAM CORE

Our advanced CFC-free, high density, polyurethane foam core enhances the door's soundproofing capabilities and provides insulation up to six times greater than wood doors.

FEATURING

PLASTPRO PF™ FRAMES

PF™ Frames from Plastpro, Inc. are an innovative new alternative to traditional wood door jams. After extensive research and development, Plastpro has formulated a poly-fiber doorframe system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot, and insect resistant. This unique formulation means that Plastpro's PF™ Frames will not absorb or wick moisture and will never warp, splinter, or rot. And the advanced PF™ Frame system can be machined the same way as traditional wood jams with no added hassles. Plastpro's PF™ Frames guarantee a long-lasting, rot-free entryway that will maintain its integrity today, tomorrow, as well as years down the road.

PF™ FRAMES

Plastpro is proud to offer full-length full-composite frames

WHITE CAPPED FRAME

Prefinished white capped jamb. No paint required.

RIGID POLY-FIBER FORMULATION

Plastpro's unique poly-fiber formulation provides durability, support and reliable strength.

CLOSED CELLULAR STRUCTURE

Ensures door frame and moulding will not absorb moisture and resists splitting, rotting and insect damage.

TWICE THE SCREW-HOLDING POWER

Looks and feels like wood, but is stronger and more durable.

What is in your Future

PLASTPRO PF™ FRAME WOOD FRAME

V3 Series Patio Door

Features & Benefits:

- 7/8" insulated tempered low-e argon glass helps save energy and helps reduce heating and cooling costs
- Fusion-welded frame and sash create strong, weathertight corners
- Tandem, self-leveling ball bearing rollers and a specially designed rolling track offers smooth, easy operation
- Steel reinforced panels for added strength
- Dual weatherstripping virtually eliminates drafts for a more energy efficient home
- Color coordinated handles create an elegant look
- Grilles are sealed within the glass for easy cleaning

The Series 5800 Patio Door lets more light into your home and allows you to enjoy the natural beauty of the outdoors. The fully assembled, fusion-welded door features a clean, attractive design that will add style and elegance to virtually any home. Designed and built to provide a lifetime of smooth, reliable performance, the series 5800 is extremely strong, energy efficient and durable.

Premium Patio Door V3 Series

† See limited warranty for details

Built to Last: The series 5800 is designed and built to provide a lifetime of reliable performance. It features a wider, thicker profile for added strength and a more traditional appearance. Fusion-welded construction creates a strong, weather-tight door.

Proven Performance: Tested and certified to the AAMA standards for strength and durability, the Series 5800 achieved a design pressure rating of Dp50

Energy Efficient: 7/8" insulated glass helps combat rising heating and cooling costs. LoE Glass with Argon Gas provides superior energy savings, keeping your home warmer in the winter and cooler in the summer. Dual weatherstripping creates a virtually weather-tight seal, helping eliminate drafts.

Durable and Distinctive Hardware: The Series 5800 comes standard with an elegant handle design and a multi-point locking system for increased security. Dual ball bearing, self-leveling rollers and a rigid rolling track result in smooth, effortless operation.

Limited Lifetime Warranty†

Energy Efficient in any Climate.

Silver Line products are ENERGY STAR® certified, which results in greater energy efficiency virtually anywhere you live, helping to reduce energy bills and make your home more comfortable year-round.

HRVH100S

Heat Recovery Ventilator with HEPA Filtration

Significantly increase the quality of the air inside your home with a BROAN HRV. Allergens and pollutants within your home can have negative effects on your health. By adding a BROAN HRV to your home's ventilation system, you can ensure that the air within your home is being circulated and the pressure remains balanced.

- ◆ Delivers 50 to 104 CFM of balanced ventilation.
- ◆ 5-inch diameter ports use smaller ducts allowing for easy installation.
- ◆ Integrated defrost control allows for a fast and easy adjustment of the defrost duration according to climatic zones.
- ◆ Electronic wall control with LCD screen included offers 5 operation modes for optimal performance.
- ◆ Blower design gives a ultra-quiet operation at 2.5 sones.
- ◆ HVI certified and ENERGY STAR[®] Qualified.

HEPA Filtration plus Balanced Ventilation Systems provide year round air filtration, plus energy saving features matched to any climate. HEPA with antimicrobial protection is the most effective filtration available, capturing 99.97% of airborne particles including dust, allergens and pet dander.

Whole House Ventilation

New homes are tightly built to save energy. Air within your home can be up to 10 times more polluted than the air outside. Microbial pollutants like mold, pet dander and plant pollen along with chemicals such as radon and volatile organic compounds (VOCs) create a toxic environment in your home. The build-up of pollutants such as these is shown to lead to allergies, asthma and other health concerns.

To combat the issue of poor ventilation, many studies from Building Science organizations, government and independent building science experts indicate the today's homes need whole house ventilation throughout the day to maintain a healthy indoor environment.

VACUFLO True Cyclonic Power Units provide sustained cleaning power by separating the dirt from the airflow without the use of bags or filters! The powerful cleaning performance of the VACUFLO True Cyclonic will not decrease as dirt accumulates.

Experience the ultimate in whole-house cleaning convenience, indoor air quality benefits and value with VACUFLO®, the VACUFLO System works by transporting dirt, debris and dust through a simple network of tubing that runs through the walls of your home to a main power unit, usually located in a garage, basement or utility area.

- ◆ No bags or filters to replace.
- ◆ Eliminates 100% of vacuumed dirt, dust and allergens from your home.
- ◆ Clear, comfort-grip dirt canister is easy to handle.
- ◆ Powerful, high-performance motor delivers reliable, lasting performance.
- ◆ Whole-house cleaning versatility designed to clean all interior surfaces - hard surface flooring, carpet, rugs, walls and upholstery.

Today's environmentally conscious homeowners are demanding and getting improved energy efficiency, better indoor air quality and smarter use of building materials. These "green" building initiatives not only protect the environment, but also improve comfort and boost home value.
